Minutes of Meeting

For several reasons only 3 of seven islands were represented on Gotland.

Decision: The AC Report will be given as per draft sent out to the WG members.

The WG meeting and the necessary decisions will be postponed to the next meeting in 2006.

Proposal for meeting date: 16/17 February 2006

Proposal for meeting place: Tallinn

Information: SEK 40,000 are provided in 2006 budget for Baltic Light project.

Upon Youth Camp 2006 Board will decide at their January meeting in Helsinki.

From the Anchors Aweigh Conference we learned about Culture as a Motor for Growth that culture as development tool

- shall give the society a face
- shall be creative to see and define old values in a new way
- is an indispensable part of economic development and development of a democratic society
- is vital in all fields of society, on regional and national level
- is more than entertainment and decoration, beautiful exhibits
- is in long term view a tool of regional development

Cultural industries are industries with origin in individual creativity.

We have to see Culture

- as part of the experience industries
- as a business branch
- as marketing tool
- as competition element
- as basic for quality of life, good health, high creativity
- as a basis for co-operation.

Recommendations from PtP friends:

Be creative.

Don't do that much.

Be more focussed.
